

COUNTRY PROFILE

Kinesis re-introduces physical gold and silver as currencies that integrate with today's online banking and payment solutions, offering unique financial benefits for simply spending, sending or storing money.

Indonesia Quick Facts:

- Indonesia population - 264 million
- 66% of the population being either “unbanked” or “under-banked”.
- The largest economy in Southeast Asia
- The world's ninth-largest economy
- One of the fastest-growing emerging markets in the world.
- World Bank estimates, there are 52m in the Indonesian middle class, accounting for 43% of total household consumption.
- Household consumption accounts for 55% of GDP, the second-highest rate in ASEAN
- Indonesia is hungry for technological and financial innovation.

Currently, gold is a major asset for saving and investment in the region, as it's historically seen as one of the safest and most reliable stores of value available.

INTRODUCING KINESIS - INDONESIAN INITIATIVE

With 225 million (87%) of the country's citizens following the Islamic faith, many follow Sharia Law in which physical gold is proclaimed a legal investment.

The combination of Indonesia's industry-friendly climate and latest legislative pronouncements relating to gold have opened doors for Kinesis to develop a Sharia gold solution.

- JFX Sharia Gold (JSG) contracts have been developed to enable the physical trading, vaulting and logistics of Shariah-compliant physical bullion.
- Partnership with Kliring Berjangka Indonesia (KBI), the Indonesian government clearinghouse corporation.
- Partnership with the Indonesian government with exclusive rights to build the first physical bullion vault to store all Kinesis physical bullion.
- PT POS Indonesia, state-owned postal service in Indonesia and third-largest postal service in the world, with over 58,000 outlets.

Kinesis will launch Q1 2020 a cross-border payment solution for the 3 million migrant workers sending just under US\$1 billion each month between the Malaysia-Indonesia Corridor, followed by a nation wide roll-out.

THE KINESIS MONETARY SYSTEM

If you are connected to a Government or are a Government organisation
